天然防蟎防蚊技術

Breyner

Vertically integrated company, BREYNER markets antiparasitic products for textile items for almost 20 years. Specializing in bio-active plant-based treatments BREYNER offers original and innovative solutions to protect all consumers and their home.

BREYNER provides its customers a source of added value and long-term business momentum through qualitative, natural, innovative and efficient treatments .

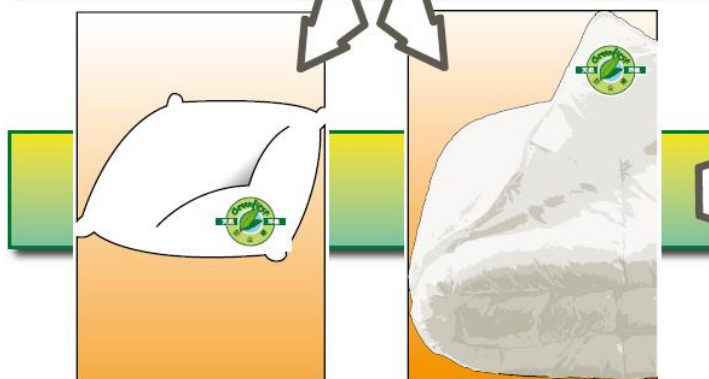

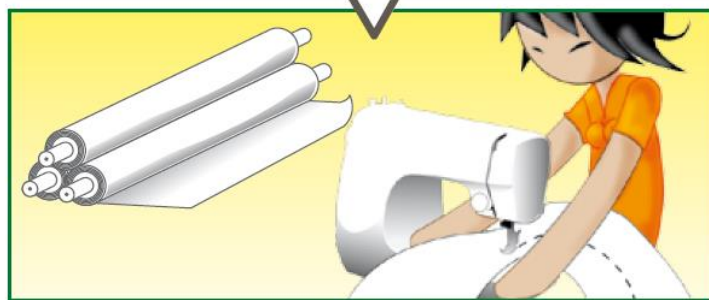

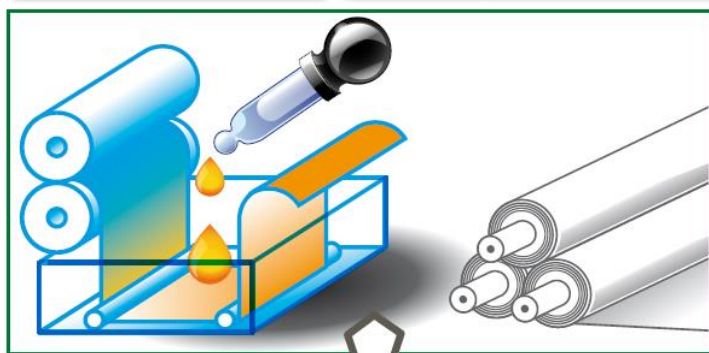

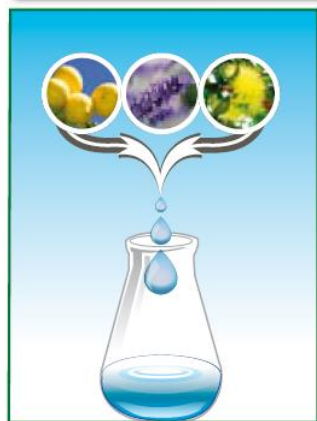

Breyner 是來自法國的公司，擁有超過20年成功經驗，專注於抗生物助劑綜合一體化的公司。

Breyner 為所有消費者及家庭提供獨一無二的**純天然植物**抗蟲助劑。

Breyner 通過**高品質、純天然、創新、高效**的整理劑為客戶提供增值服務及業務長遠動力。

Breyner 產品商標是用戶對高質量、高標準期望的強力保證。

Greenfirst®
www.greenfirst.fr

香葉醇

大自然的神奇配方

Modern active substance par
excellence

香葉醇是GREENFIRST整理劑的主要有效成份，能有效防蟎、防蚊、驅蟲。

香葉醇是在植物中萃取的精華，具有很多優勢，可以有效的被生物降解，對人體健康無虞同時對環境安全無害。

香葉醇結合萊姆、薰衣草、尤加利等萃取精油配方，經由Breyner先進的獨家技術，可以直接應用在織品及床寢上，有效且持久耐洗。

檸檬 *Lemon*

檸檬的果汁含有5%至6%的檸檬酸，被廣泛地用於如檸檬汁等食品的生產中。檸檬富含維生素C，提煉出的精油也可做為殺菌、收斂劑等用途使用。

尤加利葉 *Eucalyptus*

尤加利樹又名桉樹 (*Eucalyptus*)，是桃金娘科桉屬植物的總稱。尤加利樹葉製成的精油具有除蟲功效，也可以緩解昆蟲咬傷的疼痛。

香葉醇 *Geraniol*

結合現代寢具科技，經過不斷的研究改良，使用檸檬、薰衣草、尤加利葉等天然原料，提煉成天然防蟎精油，經IDEA認證，可有效降低過敏現象。

薰衣草 *Lavender*

薰衣草已經被廣泛的使用於藥草學上，薰衣草油據說可以減輕頭痛的症狀。而且薰衣草常用來輔助入眠：將薰衣草的種子和花加到枕頭內，也可以達到幫助入眠的效果。

Greenfirst®

防蟎

採天然作用週期，透過香葉醇對蟎蟲神經系統的影響，以此方式**阻止蟎蟲的遺傳增生**，讓蟎蟲自然死亡且不再繁衍。

防蚊

香葉醇本身具有驅蟲功效，透過蚊蟲對香葉醇氣味的排斥，以此趨走蚊子，**降低蚊蟲叮咬機率**。

防床蟲

香葉醇可有效預防蟲蟲生長，自然趨避。

10 GOOD REASONS FOR CHOOSING Greenfirst®

選擇 Greenfirst® 的十大優勢

1. 市場上罕有的純植物萃取 PLANT BASED	Greenfirst物質成份為植物精油，萃取自檸檬、薰衣草及尤加利。主要作用機制成份的香葉醇只能由植物中提煉。
2. 不含任何化學添加物 NO CHEMICAL ADDITIVES	Greenfirst不含任何的農藥殺蟲劑、化學添加物、化學膠囊、甲醛或類似的物質。
3. 有效的 EFFECTIVE	經TEC獨立檢測機構及劍橋大學實驗室測試表明GREENFIRST技術處理過的織物，在多次水洗過後仍能維持一定功效。
4. 低過敏性 HYPOALLERGENIC	IDEA實驗室研究證明GREENFIRST產品不會造成皮膚過敏。
5. 具生物降解性 BIODEGRADABLE	GREENFIRST固有成分能回歸自然環境數值高達95%，不對環境造成傷害。
6. 對環境無污染 NO MIGRATING	經過實驗測試指出，生產中加工藥劑的水與織物並不對環境造成傷害，
7. Oeko-tex 認證	Greenfirst通過Oeko-tex 100 標準所有等級的檢測。
8. 產品追蹤流水編號 TRACEABILITY	嚴格的織標政策及品質控管規範，這方面也是對於消費者的品質保證。
9. 不影響環境與人體 IMPACTATING	綠色產品概念，絕對安全的保證，選擇Greenfirst這樣的環保藥劑可增加商品的附加價值。
10. 香葉醇 GERANIOL	Breyner攜手歐洲微生物組織專注於香葉醇的研究，同時在歐盟委員會註冊，同時保證了產品的品質來源。

INTER - LABORATORY TRIAL OF THE EFFICACY OF
A FABRIC TREATMENT TO CONTROL HOUSE DUST MITES

劍橋大學實驗室
防蟎測試報告 99.9%有效防蟎

Laboratory 1:

Insect Research & Development Limited
6 Quay Court, Colliers Lane, Quay
Cambridge, UK. CB25 9AU

Table 1: The house dust mite counts after a 6 week incubation period. Percentage reduction refers to the percentage reduction in dust mite numbers found on the treated fabric samples when compared to the control.

Fabric Sample	Replicate	Dust Mite Count	Average	% Reduction
Treated	1	0	0.6	99.9%
	2	0		
	3	2		
Control	1	2106	1681	N/A
	2	1525		
	3	1414		

Conclusion

The results achieved from this set of testing show that under *in-vitro* conditions the treated fabric is able to reduce the house dust mite population by 99.9% when compared to an untreated control. This is well above the accepted efficacy rate of 80% and reduces house dust mites to well below the level at which sensitisation could occur. These results indicate that the treated product could be effective at controlling house dust mite populations if tested *in-vivo*.

PC 200408/0179-A Review n°4
PC 200408/0179-B Review n°4

Research done on 07/09/04,

A qualitative analysis of the volatile compounds including solvents, a qualitative research of the essential oils, and a multi-residue pesticides and benzimidazoles research have been done on the sample " PROFYL NK 10 BATCH N°N617 014 ".

Conclusion :

- PROFYL NK10 BATCH N°N617014 does not contain any chemical pesticides nor chemical solvents according to the appendix 1 of the report PC 200408/0179-B Review n°1 and according to the compounds tables in the report PC 200408/0179-A Review n°1.

The analysis have shown that more than 90% of the identified volatile compounds come from essential oils extracted from plants.

- PROFYL NK10 BATCH N°N617014 contains essential oils of :

- Lemon,
- Eucalyptus,
- Lavender.

IDEA實驗室檢測證明GREENFIRST 對人體肌膚不會造成過敏反應

We have conducted in 2005 for the company BREYNER a study assessing the sensitizing potential in the adult volunteer with a normal skin of the product **PROFYL NK 10**.

This study concluded that the product **PROFYL NK 10** can be considered as hypoallergenic.

Taking into account that the study protocol based on the Marzulli-Maibach method has not changed and that BREYNER certifies that the composition of **PROFYL NK 10** has not changed either (see certificate attached), the study report dated 23rd March 2005 is still valid which means that the product **PROFYL NK 10** can still be considered as hypoallergenic.

Application to include active chemical products into the OEKO-TEX® list of accepted products

Dear Dr. Bignon

With your letter dated January 19, 2017 you submitted your application to put GREENSPHERE® PROFYL KB9 on the OEKO-TEX® list of accepted active chemical products. Therefore the products

GREENSPHERE® PROFYL KB9

(hereinafter "accepted product")

is harmless for human health if it is used correctly according to its operating instructions and product safety standards.

Your product will be included into the list of active chemical products as soon as this letter is returned. By counter-signing it, you declare to accept the obligations and conditions set out in this letter, namely:

Classe I

Textiles et jouets en textile pour **bébés et enfants** en bas âge jusqu'à leurs trois ans révolus, comme par ex. les sous-vêtements, les barboteuses, le linge de literie, les animaux en éponge etc.

Classe II

Les textiles qui, utilisés comme prévus, **entrent en contact avec la peau** pour une grande partie de leur surface, tels que les sous-vêtements, le linge de literie, les articles en éponge, les chemises, les chemisiers etc.

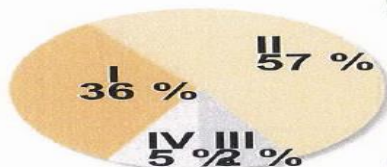

Classe IV

Matières d'ameublement à but décoratif comme les nappes de table et les rideaux, mais aussi les revêtements muraux et les revêtements de sol en textile etc.

Classe III

Textiles qui, utilisés comme prévus, **n'entrent pas en contact avec la peau** ou seulement sur une petite partie, comme par ex. les vestes, manteaux, matières de doublure etc.

HIGH DEFINITION™

PRINTEMPS COLLECTION MAISON

頂端的品牌LESTRA

在LESTRA中，則是大量將Greenfirst使用於嬰幼兒相關產品。

Traitement naturel
anti-acariens à base
d'huiles essentielles de
citron et d'eucalyptus.

Principes actifs 100%
naturels.

Efficace jusqu'à 30
lavages.

Nos produits traités Greenfirst
Oreiller Fjord Santé LESTRA
Couette Fjord Santé LESTRA
Oreiller Cristal LESTRA

Oreillers
Couettes

我們從歐洲帶來的名品
Greenfirst 已經在市場上吹起
一陣以自然為名的旋風。

亞洲會是下一個陣地，具備各
樣的加工條件、品牌推薦、安
全認證，最重要的是來自天然，
不對人體、環境造成傷害。

GERANIOL

Generally extracted from a plant known as the Palmarosa, geraniol offers many advantages. It is efficient and biodegradable. It is a modern substance thanks to its fine balance between performance, environment and safety.
